**WARNING**

 This product may contain  
Lead and/or chemicals  
known to the State of  
California to cause cancer, birth  
defects, or other reproductive harm.

**For our California Customers**

California Faucets provides a warning label to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as "Proposition 65". Many products sold in California are required by law to carry the label. We provide Prop 65 warning labels simply to inform consumers that the product contains chemicals on the State of California's Prop 65 list. California Faucets products that carry the Prop 65 label pictured here include components made with brass, which contain small but detectable amounts of lead – an element included on the Prop 65 chemical list. Brass has a decades-long history of successful use in plumbing applications. Even though a product may be found to contain a Proposition 65-listed chemical, it does not mean that use of the product will cause cancer, birth defects or other reproductive harm. Nor does it mean that a product is unsafe.

All California Faucets products meet or exceed the requirements of applicable product performance and safety industry standards, as well as the federal Safe Drinking Water Act.

We are confident there is no health hazard associated with the installation, use or removal of California Faucets products.

# OUR COMMITMENT TO CUSTOMERS

We handcraft our faucets one-at-a-time because you're one-of-a-kind. In a world of the mass-produced, one-size-fits-all, California Faucets offers fittings that fit you.

No matter which of our products you choose, you're assured that each is made-to-order and customized as you like.

Using materials sourced to stand the test of time, then artisan finished and assembled by hand in our Huntington Beach factory, every California Faucets product is unique. Just like you.

## FINISHES

**PVD** (Physical Vapor Deposition)  
PVD finishes come with a lifetime guarantee against tarnishing. Super-hard and molecularly bonded, PVD is by far the most durable finish available.

**LF** (Living Finishes)  
Created by artisan hands to uniquely age and change over time. Because they are more delicate by nature, please make sure to follow our living finish care instructions.
