Luxury Drains

The difference is in the details

Problem: You create the ultimate shower with elegant tile and luxurious fittings. But you're forced to finish the design with a flimsy drain or an industrial grate. It's like pairing athletic shoes with an evening gown—the spell is broken.

Solution: Luxury Drains by California Faucets.

We've created elegant, carefully engineered luxury drain systems that have no equal. Each of our innovative and patented drains enhance and complete the look of a beautiful shower. They unify what has been the most overlooked part of a shower with an aesthetic exclamation point.

Our steadfast focus on innovation has not gone unnoticed. California Faucets' luxury drains continue to garner international design awards. So in your next shower creation, remember to accent your design with the ultimate finishing touch.

StyleDrain®. The Original.

California Faucets was the first company in the United States to create and introduce luxury shower drains to the American market. Our creation, StyleDrain®, became the first decorative shower drain system of its kind.

Made of solid, forged brass, this patented design features 30 custom finishes to match any fitting. With no visible screws, it's easy on the eyes and feet. And though cheap imitations are beginning to appear, StyleDrain remains the original and the best.

Because StyleDrain can accommodate high-volume water flow, it's also ideal for multiple-head showers, patios, atriums or any other wet floor application. Beautiful showers deserve beautiful drains. It's as simple as that.

FEATURES

- Stylish grid patterns to achieve any look.
- 30 custom finishes to match any fitting.
- Forged, solid brass grid (5 1/4" x 5 1/4").
- No visible screws so it's easy on the eyes and feet.
- Square design makes installation easier.
- Compatible with all waterproofing methods.
- Precision tile frame to help ensure level installation and clean grouting.
- Meets or exceeds all standard codes.

Products shown:

- 1 : Neo 9171
- 2 : Craftsman 9170
- 3 : Wave 9173
- 4 : Mission 9172
- 5 : Deco Swirl 9175
- 6 : Fleur 9176
- 7 : Deco Line 9174

Every StyleDrain grid is available in more than 30 decorative finishes, including 12 ultra-durable PVD finishes, which comes with a lifetime guarantee against tarnishing.

StyleDrain® Tile

The best drain you'll never see

New from the makers of award-winning StyleDrain, a drain that virtually disappears. Allowing you to lay in any tile or stone to seamlessly match the rest of the shower, StyleDrain Tile begs the question: Where'd the drain go?

To help blend visually with the rest of the shower, the brass tile frame is available in six finishes, including five PVD finishes, the most durable choice available today.

With a wide range of innovative design features, StyleDrain Tile is a superior shower solution, both visually and functionally. It's easier to install, compatible with all waterproofing methods, and designed for level installation with no sharp edges.

StyleDrain Tile 9190

FEATURES

- Outflow rate of up to 10gpm.
- Patented method of attaching inner frame to outer frame guarantees clean look with no unsightly components visible in drain opening.
- Special grooves in inner frame walls to ensure solid grout installation and eliminate potential loosening of tiles over time.
- Create "invisible drain" by allowing inlay of tile/stone into drain cover to match surrounding tile/stone. (Inner frame: 5 3/16" x 5 3/16")
- All brass tile frame available in 6 decorative finishes, including 5 PVD finishes to accent the project or to blend the drain into the tile so it "disappears."
- Frame surface is foot friendly with no sharp edges.
- Cover removal tool and hair strainer included.
- Square design makes installation easier, and is compatible with all waterproofing methods.
- Precision tile frame to help ensure level installation and clean grouting.
- Meets or exceeds all standard codes.

| Polished Nickel (PVD) | Satin Golden Brass (PVD) |

CeraLine®

The fine line in shower drains

Imagine a shower floor unlike any you've seen before...sleek, clean, and graced by a drain so elegant it becomes a design focal point. Or select a drain set with tile to exactly match the floor, creating a look so seamless it's as if there's no drain at all.

Winner of far more international design awards than any other channel drain, and there is a reason for it. CeraLine is offered in three trim styles and six finishes, five of them PVD, the most durable finish in the world. CeraLine also features a patented adjustment system that ensures a level and flush installation every time. No other channel drain offers all these features.

Cover plate trim styles include Metro with its graceful profile, and Edge, featuring a crisp line. There's also Custom, which allows you to inlay matching tile or stone, which creates the illusion of water magically disappearing into the shower floor.

*CeraLine Stainless Steel Body 9188
Also available with Stainless Steel Outlet, Dual Outlet, and Custom Sizes*

Choose from finished metal options or matching tile.

FEATURES

- Stainless steel construction.
- Compatible with all waterproofing methods.
- Patented adjustability features ensure level installation.
- Trough sloped to prevent standing water.
- Dual outlet version available for high-flow-rate applications.
- Available in multiple lengths from 28" – 56" (custom lengths up to 79" available by special order).
- Custom tile frame comes in satin stainless steel to accent the project, or can be blackened to further blend the drain into the tile so it "disappears."
- Meets all standard codes.
- Available in multiple decorative finishes.

CeraLine options

Whether you envision a drain with matching tile and a barely visible seam, or a sleek, contemporary metal profile, CeraLine offers design options like no other.

We offer three stainless steel trim styles. Metro incorporates gently rounded lines, while Edge integrates crisp fine lines. Both versions are available in six decorative finishes—stainless steel, plus five ultra durable PVD colors.

In addition, if you prefer to create the illusion of almost no drain at all, our Custom trim allows you to inset any tile or stone to match the rest of the shower. The result? Water sensuously disappears into a barely visible line in the floor. To enhance the illusion, we provide you the option to also blacken the outer tile frame to further camouflage the drain. Like StyleDrain Tile, CeraLine Custom begs the question: Where'd the drain go?

Whichever trim style you choose, CeraLine is sure to achieve your design vision.
