California Faucets was the first to bring luxury shower drains to the industry, turning a formerly utilitarian product into a beautiful design focal point. These award-winning originals are built with a level of quality that remains unmatched.

A close-up, low-angle shot of a person's legs from the knees down, standing on a shower floor. The person's skin is wet and glistening. They are standing on a light-colored, square-tiled floor. A square, silver-colored shower drain with a grid of rectangular openings is visible on the floor, positioned just in front of the person's feet. The background is a bright, out-of-focus white wall.

LUXURY DRAINS

STYLEDRAIN®

StyleDrain is the only decorative drain system of its kind. It's patented design features beautiful patterns in solid, forged brass and is available in over 28 custom finishes. With no visible screws, it's easy on the eyes and feet.

CERALINE®

CeraLine, the 'fine line in shower drains', is a sleek, clean, linear drain with a lengthy, graceful profile. It's available in two stainless steel styles and another that allows you to inset tile to match your shower floor.

ZERO DRAIN

Our patented ZeroDrain® is the revolutionary new drain from California Faucets. In the open position, the stopper is level with the sink, resulting in a superior "zero clearance" design. Virtually impossible to clog, ZeroDrain is easier to install and service compared to standard pop-up drains, which saves significant time and money.
