Combining Italian design and American craftsmanship, we've brought our expertise into the kitchen with faucets and ensembles that include everything from matching prep faucets to cabinet pulls and knobs. Each faucet reflects the award-winning ingenuity, attention to detail, and ability to customize that sets California Faucets apart.

Faucets are solid-brass construction and include an insulated pull-down spray head with aerated or spray stream. Button spray heads toggle seamlessly back and forth between aerated and spray settings, while squeeze spray heads have an aerated stream until the lever is squeezed for spray. All spouts swivel 360 degrees for maximum reach and flexibility. Choose between multiple handle options and over 25 decorative finishes, including 12 choices in PVD, the most durable finish in the world.

## THE “SQUEEZE” HANDLE

Inspired by pro-style restaurant faucets, the “squeeze” handle is the latest innovation from California Faucets. Operate the spout with one hand to generate a powerful spray. Release the handle for a smooth aerated flow.

We can't promise you it will make doing dishes fun. We can't promise you it will make your kids want to do the dishes. We can promise you each faucet is handcrafted with our signature solid brass construction and available with every kitchen faucet series.

# LUXURY DRAINS

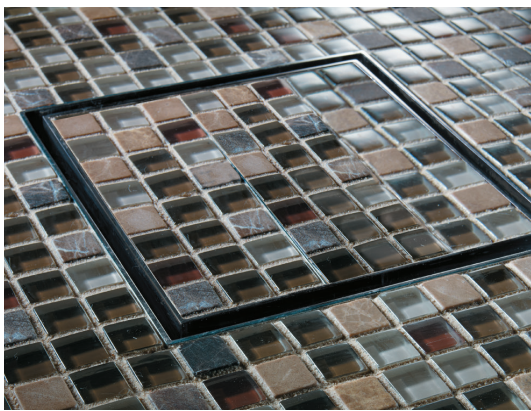

California Faucets was the first to bring luxury shower drains to the industry, turning a formerly utilitarian product into a beautiful design focal point. These award-winning originals are built with a level of quality that remains unmatched.

# STYLEDRAIN®

StyleDrain® is the only decorative drain system of its kind. The patented design features beautiful patterns in solid, forged brass and is available in over 25 decorative finishes.

With no visible screws, it's easy on the eyes and feet.

# STYLEDRAIN® TILE

StyleDrain Tile is a patented innovation that allows you to lay in any tile to seamlessly match the rest of the shower. As a result, the drain virtually disappears.

# ZERODRAIN®

Our patented ZeroDrain® is the revolutionary drain from California Faucets. In the open position, the stopper is level with the sink, resulting in a superior “zero clearance” design. Virtually impossible to clog, ZeroDrain® is easier to install and service compared to standard pop-up drains, saving significant time and money.
